Education

Shiv Nadar Institute of Eminence — Greater Noida, Delhi NCR
Bachelor of Technology in Computer Science and Engineering, Specialization in AI/ML and Minor in Mathematics; GPA: 9.14 — *Aug. 2023 – May. 2027*

Class XII — Kakinada, Andhra Pradesh
PCM Percentage: 93.8 — *2023*

Class X — Kakinada, Andhra Pradesh
Percentage: 97.2 — *2021*

Experience

Software Development Intern(CPP-3) — Remote
Hewlett Packard Enterprise (HPE) — *Feb 2026 – Jul 2026*

- **Scikit-Learn Integration**: Extended HPE Swarm Learning to support Scikit-Learn models, enabling decentralized privacy-preserving training beyond the existing TensorFlow and PyTorch frameworks.
- **Framework Development**: Generalized model integration by implementing framework-independent weight handling and estimator support for diverse Scikit-Learn models.
- **Testing & Validation**: Validated and debugged the Scikit-Learn integration across multiple estimators to ensure compatibility with the existing Swarm Learning framework.

Software Development Intern(CPP-2) — Remote
Hewlett Packard Enterprise (HPE) — *May 2025 – Jan 2026*

- **Plagiarism Detection** : Integrated Dolos-based plagiarism detection into the DMOJ programming contest platform.
- **MCQ System and Penalty**: Developed the backend for an MCQ assessment module with question management, automated answer evaluation, score computation, and a penalty system for video and tab-switching violations.

Organizing Committee Member — Greater Noida, Delhi NCR
PULSE (Programmers United for Learning and Skill Enhancement) — *Aug 2024 – Apr 2025*

- **Competitive Programming** : Organized weekly coding contests and technical workshops for university students.
- **Event Coordination** : Conducted interview-preparation sessions focused on algorithms and data structures.

Projects

- **Cartoon-to-Realistic Image Translation using CycleGAN (PyTorch)** : Developed a CycleGAN image translation pipeline by preparing unpaired datasets, designing the training pipeline, and generating realistic images from cartoon inputs.
- **Introspect (Python, FastAPI, OpenTelemetry, SQLite)**: Built an ML observability platform with a framework-agnostic model adapter, enabling end-to-end evaluation of autoregressive and diffusion language models with telemetry, consistency scoring, and semantic drift analysis.
- **Supermarket Automation System** : Developed a JavaFX desktop POS and inventory management system following MVC architecture. Implemented billing, inventory tracking, loyalty management, and sales reporting using MySQL, JDBC, and wrote comprehensive unit tests with JUnit and Mockito.

Technical Skills

- **Languages:** Python, Java, C++, C, SQL, Bash
  Frameworks/Libraries: FastAPI, Django, PyTorch, Scikit-Learn, OpenCV, NumPy
  Databases: SQLite, MySQL, MariaDB
  Tools: Git, GitHub, Docker, Linux, GitHub Actions, OpenTelemetry

Achievements

- **Dean's List** – Awarded for outstanding academic performance at Shiv Nadar Institute of Eminence (Monsoon 2023, Spring 2024, Monsoon 2025, Spring 2026).

Courses(Excluding Core Courses)

- **Computer Science**: - Introduction to Machine Learning, Distributed Systems, Natural Language Processing, Social and Information Networks, Cloud Computing
- **Mathematics and Other Electives**: - Introduction to Mathematical Finance, Principles of Macroeconomics, Real Analysis, Elementary Number Theory, Vector Calculus and Geometry, Ordinary Differential Equations
